The Spetzler Symposium celebrates one of the most accomplished and recognizable names in neurosurgery, and will contain scientific content delivered via lectures, 2-D and 3-D videos, discussion panels, debates and more. Over 75 national and international neurosurgical masters and leaders in the field have committed to present at and participate in this two-day event. The current list of presenters can be found on the back.

Robert F. Spetzler, MD, FAANS, is known across the globe. He has broadly impacted both neurosurgical education and its practice. To focus the symposium, we have chosen to limit presentations to the four neurosurgical themes to which he is most indelibly linked: craniovertebral junction, skull base, complex/deep brain tumors and cerebrovascular surgery.

1. Identify different pathologies at the craniovertebral junction.
2. Choose the appropriate surgical approach for specific lesions of the craniovertebral junction.
3. Differentiate various skull base lesions and understand the benefits and limitations of most available skull base approaches (open versus endoscopic).
4. Apply the different open and endovascular method to the treatment of intracranial aneurysms and vascular malformations.
5. Familiarize themselves with the advanced techniques of brain mapping and surgical removal of gliomas.

Come for the Spetzler Symposium and stay to see Dr. Spetzler honored during the 2017 AANS Annual Scientific Meeting. Dr. Spetzler will be presented the 2017 Cushing Medal, the highest honor bestowed by the AANS to any member. The award will be presented Tuesday, April 25, during the Plenary Session II.

April 20-21, 2017, in Los Angeles, at the Los Angeles Convention Center, immediately preceding the 85th AANS Annual Scientific Meeting

The Spetzler Symposium celebrates one of the most accomplished and recognizable names in neurosurgery, and will contain scientific content delivered via lectures, 2-D and 3-D videos, discussion panels, debates and more. Over 75 national and international neurosurgical masters and leaders in the field have committed to present at and participate in this two-day event. The current list of presenters can be found on the back.

Robert F. Spetzler, MD, FAANS, is known across the globe. He has broadly impacted both neurosurgical education and its practice. To focus the symposium, we have chosen to limit presentations to the four neurosurgical themes to which he is most indelibly linked: craniovertebral junction, skull base, complex/deep brain tumors and cerebrovascular surgery.

Learning Objectives:

1. Identify different pathologies at the craniovertebral junction.
2. Choose the appropriate surgical approach for specific lesions of the craniovertebral junction.
3. Differentiate various skull base lesions and understand the benefits and limitations of most available skull base approaches (open versus endoscopic).
4. Apply the different open and endovascular method to the treatment of intracranial aneurysms and vascular malformations.
5. Familiarize themselves with the advanced techniques of brain mapping and surgical removal of gliomas.

### The Spetzler Symposium

**State-of-the-art in Cerebrovascular, Skull Base, Craniovertebral Junction and Brain Tumor Surgery**

**A Scientific Tribute and Global Celebration**

### Exhibit/Commercial Support

**April 20-21, 2017, Los Angeles Convention Center**

Company details to be listed in the Quick Planner (print exactly as it should be listed).

</table>
| **Platinum Level Supporter:** $20,000 | | Tabletop exhibit  
2 tickets to faculty dinner on Thursday, April 20  
2 tickets to dinner on Friday, April 21  
2 exhibit badges  
Recognition in Quick Planner  
Signage at the meeting  
Acknowledgement and thanks for support during dinners |
| **Gold Level Supporter:** $15,000 | | Tabletop exhibit  
2 tickets to faculty dinner on Thursday, April 20  
2 exhibit badges  
Recognition in Quick Planner  
Signage at the meeting  
Acknowledgement and appreciation for support during dinners |
| **Silver Level Supporter:** $10,000 | | Tabletop exhibit  
2 exhibit badges  
Recognition in Quick Planner  
Signage at the meeting  
Acknowledgement and appreciation for support during dinners |
| **Bronze Level Supporter:** $5,000 | | Tabletop exhibit  
2 exhibit badges  
Recognition in Quick Planner  
Signage at the meeting  
Acknowledgement and appreciation for support during dinners |

Product Description [for Quick Planner, maximum of 50 words]. Company product description will not be listed if you do not complete this section. Please print clearly.

I understand and agree that the exhibit is designed for the display and demonstration of products and services relating to the practice and advancement of the art and science of neurological surgery, and for the professional education of the members of AANS. This contract becomes effective upon receipt. Requests for cancellations of support must be made in writing. Fax or email is accepted. Refunds will be made in accordance with the following schedule:

- Received by the AANS from Sept. 1, 2016, until Nov. 18, 2016: forfeit 50% of support
- Received by the AANS on or after Nov. 19, 2016: forfeit 100% of support
