

MEETING REFERENCE SHEET

2008 AANS ANNUAL MEETING | Chicago, IL | April 26-May 1, 2008

Practical Clinics

Saturday, April 26

Practical Clinic 8:00 AM-12:00 PM

- 001 Artificial Lumbar Disc Technology – \$800.00
- 002 Management of Cervical Spine Deformity and Instability – \$375.00
- 003 Anterior and Lateral Approaches to Skull Base – \$800.00
- 004 Current and Future Trends in Lumbar Interbody Fusion – \$375.00
- 041 Minimally Invasive Treatment of Trigeminal Neuralgia – \$375.00

Practical Clinic 8:00 AM-5:00 PM

- 005 Minimally Invasive Microendoscopic Discectomy – \$900.00
- 006 Intracranial Endoscopy: Indications, Techniques, Outcome and Complications – \$900.00

Practical Clinic 1:00-5:00 PM

- 007 Hands-On Peripheral Nerve of the Upper Extremities – \$800.00
- **008 Basics of Spinal Stabilization, Fusion and Instrumentation – \$375.00
- 009 Modern Techniques and Future Trends in Lumbar Interbody Fusion – \$375.00
- **010 3-D Anatomy and Approaches to the Supratentorial Area and Anterior Skull Base – \$350.00
- 011 Minimal Access Management of Spinal Disease: Case Reviews with the Experts – \$375.00

Sunday, April 27

Practical Clinic 8:00 AM-12:00 PM

- 012 Spinal Radiosurgery – \$375.00
- 013 Thoracic and Lumbar Stabilization and Fusion: Indications and Complications – \$375.00
- 014 Strategies for Building Hospital Partnerships – \$375.00
- 015 Craniovertebral Junction Surgical Approaches: Indications, Techniques, Limitations and Complications – \$550.00
- 016 Current Issues and Complexities in Spine Coding – \$375.00
- 017 Spinal Endoscopic Techniques to the Thoracic and Lumbar Spine – \$800.00
- **018 Endovascular and Hybrid Approaches to Cerebrovascular Disease – \$375.00
- 019 Technical Management of Intracranial Aneurysms: Site Specific Surgical Anatomy, Operation Intervention and Complication Management – \$375.00
- 020 Moving Your Practice into the Digital Age – \$375.00
- **021 Peripheral Nerve Injuries, Entrapments and Tumors: Examination and Evaluation – \$375.00
- 022 Preparation for Medical/Legal Testimony – \$375.00
- 023 Non-Invasive Pre-Operative and Intra-Operative Brain Mapping and Treatment of Epilepsy – \$475.00

Practical Clinic 8:00 AM-5:00 PM

- 024 Practical Anatomy of the Thoracic and Lumbar Spine – \$900.00
- 025 Practical and Technical Aspects of Transphenoidal Surgery – \$900.00
- **026 Head Trauma: Current Treatments and Controversies with Hands-On Practical Session in Brain Monitoring and Techniques – \$475.00
- 027 Update on Tumors for the General Neurosurgeon – \$475.00
- **028 Decision Making and the Spine Patient for Nurses, APRN's and PA's – \$375.00

Practical Clinic 1:00-5:00 PM

- **029 3-D Anatomy and Approaches to the Posterior Fossa and Posterior Skull Base – \$375.00
- 030 Percutaneous Vertebral Body Stabilization and Augmentation – \$800.00
- 031 Artificial Cervical Disc Technology – \$375.00
- 032 Movement Disorder Surgery: Techniques, Decision Making, Complication Avoidance and Management – \$375.00
- 033 Neurosurgical Case Coding: Cranial and Non-Spine Procedures – \$375.00
- **034 Interventional Neurovascular Disease: Management, Complications and Avoidance Strategies – \$375.00
- 035 Medical Certainty and the Medical Expert Witness – \$375.00
- 036 Thoracic and Lumbar Stabilization and Fusion: Indications and Complications – \$375.00
- 037 Cranial Radiosurgery – \$375.00
- 038 Choosing and Developing a Neurosurgical Practice – \$375.00
- 039 Local Delivery Methods for Adjuvant Treatment of Brain Tumor Patients – \$375.00
- 040 Transcatheter Technology: An Alternative to Pedicle Screw Fixation with Interbody Techniques – \$550.00

Monday, April 28

7:30-9:30 AM

Breakfast Seminars \$75 each

- 101 Quality and Efficiency Measures in an Action Plan
- 102 Open vs. Endoscopic Surgical Strategies and Approaches to the Anterior Skull Base
- 103 Cerebral Neuromonitoring
- 104 Cerebral Venous System: Surgical Considerations
- 105 International Opportunities in Neurosurgery
- 106 Epilepsy: New Surgical Treatment and Management Approaches
- ****107 Coil vs. Clip for Intracranial Aneurysms
- 108 Pediatric Head Injury
- 109 Peripheral Nerve Entrapment Syndromes
- 110 Complications and Complex Spinal Surgery: Lessons Learned
- 111 Spondylolisthesis: Controversies in Management
- 112 Cervical Spondylolytic Myelopathy
- 113 Update in Psychosurgery
- 114 How I Do It: Vascular Microsurgery
- 115 Vertebral Column Tumors
- ***116 Integrating Mid-Level Practitioners Into Your Practice
- 117 Artificial Lumbar Disc
- 118 Evidence Based Medicine and Outcome Studies: The Design of a Clinical Study
- **119 Surgical Approaches to the Lateral Skull Base
- 120 Models for Successful Neurosurgical Practice
- *121 Meet the Press
- **/**122 Neurosurgical Decision Making in the Elderly
- 123 So You've Been Sued: What Now?
- 124 How to Advance Your Academic Career: Answers to Your Questions
- 125 Independent Neurosurgical Evaluations as Part of Your Practice: Diversification, Practice Expansion and Autonomy

Tuesday, April 29

7:30-9:30 AM

Breakfast Seminars \$75 each

- 201 How I Do It: Acoustic Tumors
- 202 Minimally Invasive Spinal Neurosurgery: State-of-the-Art
- 203 Lumbar Spine Fusion
- 204 History of Neurosurgery and Neurosciences in Chicago
- 205 Cavernous Malformations: Current Controversies in Management

- ***206 Functional Mapping of the Cerebral Cortex: Advantages and Limitations
- 207 Chiari Malformations: Diagnosis Treatments and Failures
- 208 Lumbar Stenosis
- 209 Treatment of Complex Regional Pain Syndrome and Hyperhydrosis
- 210 Controversies in the Management of Intracerebral Hematomas
- **211 Advances in Carotid Disease: Surgery vs. Endovascular Therapy
- 212 Pituitary Tumors
- 213 Biologics for the Spine
- 214 Management of Spinal Axis Trauma
- 215 Cervical Disc Disease
- 216 Intracranial Endoscopy
- 217 Malignant Brain Tumors: State-of-the-Art Treatment
- 218 Tethered Cord Anomalies
- 219 The Future of Global Neurosurgery
- 220 Improving Your Bottom Line
- 221 Spinal Motion Preservation-The Posterior Column Implants
- **222 Becoming a Neurosurgeon: A Practical Course for Medical Students and Residents
- 223 Vertebroplasty: Indications, Controversies and Credentialing
- ***224 Management of Acute Spinal Cord Injury

Wednesday, April 30

7:30-9:30 AM

Breakfast Seminars \$75 each

- 301 ABNS Board Preparation: What You Must Know
- **302 Multidisciplinary Management of Cerebral AVMs
- 303 Suprasellar and Juxtellar Tumors
- 304 Foraminal and Far Lateral Lumbar Disc Herniations
- 305 Lumbar Interbody Fusion
- 306 Surgical Treatment of Parkinson's Disease
- 307 Future Technology for Treating Hydrocephalus
- 308 A History of Pre-Cushing Era Neurosurgery in North America
- 309 Management of Vasospasm
- ***310 Management of Adult Scoliosis
- 311 Intramedullary Spinal Cord Tumors
- 312 Building a Comprehensive Spine Center
- 313 Syringomyelia: Pathophysiology and Treatment Approaches
- 314 Management of Asymptomatic Vascular Lesion
- 315 Neurosurgical Management of Intractable Pain
- 316 Low-Grade Gliomas
- 317 Spinal Surgical Challenges
- 318 Management of Pediatric Spinal Column Disorders
- 319 Cerebral Trauma State-of-the-Art Treatment
- 320 The Spectrum of Adjuvant Therapy for Brain Tumors
- 321 Microvascular Anatomy as a Guide to Better Surgery
- ***322 Management of Subacute and Chronic Treatment of Traumatic Spinal Cord Injury
- 323 New and Evolving Technologies for Minimally Invasive Surgery of the Lumbar Disc
- ***324 Neurosurgical Patient Assessment Scales: Critique and Practice Integration

Thursday, May 1

7:00-9:00 AM

Breakfast Seminars \$75 each

- 401 Pediatric Neurosurgery: Meet the Experts
- 402 Cerebrovascular Neurosurgery: Meet the Experts
- 403 Lumbar Spine Neurosurgery: Meet the Experts
- 404 Tumor Neurosurgery: Meet the Experts
- 405 Cervico-Thoracic Spine Neurosurgery: Meet the Experts

* For AANS Members Only

** No Registration Fee For Residents, Fellows and Medical Students
