

RESIDENT, FELLOW AND MEDICAL STUDENT ACTIVITIES

R,F&MS Watch for this icon throughout the Preliminary Program. It indicates sessions that were designed with you in mind.

RESIDENT'S NOTE

Neurosurgical residents and fellows in North America receive free membership in the AANS! Visit the AANS Resource Center in the Exhibit Hall to learn more about membership benefits, or visit www.AANS.org/residents/.

INTERNATIONAL RESIDENT/FELLOW

This membership category offers membership to residents or fellows who are enrolled in a verifiable non-North American neurosurgical training program. International Resident/Fellow Members may request transfer to International member status with the submission of a copy of their certification documentation following training. For more information, please visit the AANS Resource Center in the Exhibit Hall or the membership area of www.AANS.org.

MARSHALS PROGRAM

Be a part of the revolution! This year annual meeting volunteers can participate in the most innovative educational meeting in AANS history – the 2010 AANS Paperless Annual Meeting, with content delivered and accessible by the iPod touch®, Apple's innovative wireless mobile platform that is as easy to use as touching your finger to its screen and tapping an icon.

The Annual Meeting Marshal's Subcommittee has long depended on the volunteer activity of many individuals to ensure the quality and success of the practical clinics and breakfast seminars. This year the committee will also need volunteers to assist with the pioneering effort of using an exclusively wireless mobile platform for the first time.

Benefits of the program

In return for volunteering, each person can:

- ★ Attend one practical clinic or breakfast seminar, free of charge. There is potential to attend more if there are open sessions at the start of the meeting
- ★ Meet the senior members of the organization
- ★ Take advantage of training on the use of the AANS iPod touch® application

Responsibilities include:

- ★ Assist attendees in using their iPod touch®, staffing designated areas at assigned times during the meeting
- ★ Marshal the breakfast seminar or practical clinic you attend (instructions will be provided)
- ★ Assist in session operation during practical clinics or breakfast seminars as directed

For those interested in volunteering to serve as a Marshal, please contact the AANS Department of Education and Meetings at aansam@aans.org or check off the appropriate box on the registration form. Priority will be given to medical students and residents. Early in 2010, you will receive a form to complete and submit indicating your session preferences.

SESSIONS FOR RESIDENTS, FELLOWS AND MEDICAL STUDENTS

Eleven exclusive practical clinics and fifteen breakfast seminars are being offered complimentary to residents, fellows and medical students which are listed below:

PRACTICAL CLINICS

- 004 3-D Anatomy and Approaches to the Supratentorial Area and Anterior Skull Base
- 005 Spinal Stabilization, Fusion and Instrumentations: Biomechanics and Techniques
- 011 Choosing and Developing a Neurosurgical Practice

- 012 3-D Anatomy and Approaches to the Posterior Fossa and Posterior Skull Base
- 013 Peripheral Nerve Injuries, Entrapments and Tumors: Examination and Evaluation
- 019 Update on Malignant Brain Tumors for the General Neurosurgeon
- 023 Thoracic and Lumbar Stabilization and Fusion: Indications and Complications
- 024 Microsurgical Management of Intracranial Aneurysms: Site Specific Surgical Anatomy, Operation Intervention and Complication Management
- 025 Interventional Neurovascular Disease: Avoidance and Management Complication
- 028 Neurotrauma Critical Care Review and Update for the Practicing Neurosurgeon
- 031 Neurosurgery 2020: A Bright Future

BREAKFAST SEMINARS

- 103 Lumbar Spine Fusion
- 110 Advances in Carotid Disease: Surgery vs. Endovascular Therapy
- 118 Getting the Most Out of Your Residency
- 202 Multidisciplinary Management of Cerebral AVMs
- 209 Management of Vasospasm
- 211 Intramedullary Spinal Cord Tumors
- 213 Management of Asymptomatic Vascular Lesion
- 214 Neurosurgical Management of Intractable Pain
- 220 Pediatric Head Injury
- 306 Coil vs. Clip for Intracranial Aneurysms
- 307 Peripheral Nerve Entrapment Syndromes
- 314 Surgical Approaches to the Lateral Skull Base

- 316 Beginning Your Academic Career:
Answers to Your Questions
- 317 Neuromodulation for Chronic Pain
- 318 Evaluation of the Child with a CSF
Shunt

NEUROSURGICAL TOP GUN COMPETITION

For the fifth consecutive year, the Young Neurosurgeons Committee will present a competition for residents and fellows, located in booth #1849 in the exhibit hall. This three day event will include stations such as motion/tremor analysis, computer-simulated ventriculostomy and pedicle screw placement. Contestants will receive scores for their performance and the resident or fellow with the best score will receive the Neurosurgical Top Gun honor and prize. Watch for more information online at www.AANS.org.
