Washington, DC 20515

The Honorable Sander Levin, Ranking Member  
Ways and Means Committee  
United States House of Representatives  
Washington, DC 20515

**Subject: H.R. 1190, the “Protecting Seniors' Access to Medicare Act”**

Dear Chairman Ryan and Ranking Member Levin,

On behalf of the undersigned medical organizations, representing 450,000 physicians and the patients they serve, we urge you to pass out of committee H.R. 1190, the “Protecting Seniors' Access to Medicare Act.” Created by the Affordable Care Act (ACA), the IPAB is a government board whose sole job is to cut Medicare spending, and this bill will repeal this deleterious provision of the ACA. This bipartisan legislation currently has over 230 cosponsors.

From the beginning of Medicare, members of Congress have played an essential role in shaping policies that best meet the needs of their communities and constituents to ensure that the healthcare system is equipped to care for diverse populations across the country. With the advent of the IPAB, however, the people’s elected representatives will no longer have power over Medicare payment policy. Instead, these major health policy decisions will rest in the hands of 15 unelected and largely unaccountable individuals. Even worse, if IPAB fails to report recommendations or never becomes operational, this power will rest solely in the hands of a single individual — the Secretary of the Department of Health and Human Services. Additionally, fewer than half of the IPAB members can be healthcare providers, and none is permitted to be practicing physicians or be otherwise employed. Thus, not only does the creation of IPAB severely limit congressional authority, but it essentially eliminates the transparency of hearings, debate, and a meaningful opportunity for critical stakeholder input.

While we recognize the need to reduce the federal budget deficit and control the growth of healthcare spending, the IPAB is simply the wrong solution for addressing these budgetary challenges. We need a workable alternative that adequately reimburses physicians and ensures that patients will have timely access to quality care. Leaving Medicare payment decisions in the hands of an unelected, unaccountable body with minimal congressional oversight will negatively affect timely access to quality healthcare for our country's senior citizens and individuals with disabilities.

We thank you for advancing this important legislation. We look forward to working with you to ensure that it becomes law.

Sincerely,
