**AANS and CNS Statement on the Nomination of Rep. Tom Price to be HHS Secretary**

*Neurosurgeons Applaud Nomination and Urge for Swift Confirmation*

Washington, DC—The American Association of Neurological Surgeons (AANS) and Congress of Neurological Surgeons (CNS) strongly support the nomination of Rep. Tom Price, MD (R-Ga.) to become the next Secretary of the U.S. Department of Health and Human Services (HHS) and we urge the Senate to confirm him to this important position swiftly.

“Throughout his time in Congress, Dr. Price, an orthopaedic surgeon, has been a staunch advocate for the preservation of the doctor-patient relationship, a fierce protector of private practice, and a stalwart supporter of academic medicine,” remarked AANS president, Frederick A. Boop, MD, FAANS, a pediatric neurosurgeon from Memphis, Tenn. “As a practicing physician, he understands all aspects of the health care system, which is essential to run HHS effectively,” Dr. Boop added.

CNS president, Alan M. Scarrow, MD, JD, FAANS, a practicing neurosurgeon from Springfield, Mo., noted, “On behalf of organized neurosurgery we congratulate Dr. Price on his nomination, and we look forward to working with him upon his confirmation to create a health care delivery system that promotes high-quality, high-value, and better-coordinated care for our patients.”

###

*The American Association of Neurological Surgeons (AANS), founded in 1931, and the Congress of Neurological Surgeons (CNS), founded in 1951, are the two largest scientific and educational associations for neurosurgical professionals in the world. These groups represent over 8,000 neurosurgeons worldwide. Neurological surgery is the medical specialty concerned with the prevention, diagnosis, treatment and rehabilitation of disorders that affect the entire nervous system, including the spinal column, spinal cord, brain and peripheral nerves.
