Dear Chairwoman Lowey and DeLauro and Ranking Members Granger and Cole:

As you consider Labor, Health and Human Services appropriations for Fiscal Year FY (2021), the Trauma Coalition, a broad group of organizations representing the nations frontline trauma providers, writes to ask you to provide $11.5 million in funding for the Military and Civilian Partnership for the Trauma Readiness Grant Program.

In 2016, the National Academies of Science, Engineering, and Medicine (NASEM) released a report titled, “A National Trauma Care System: Integrating Military and Civilian Trauma Systems to Achieve Zero Preventable Deaths After Injury.” This report suggests one of four military trauma deaths and one of five civilian trauma deaths could be prevented if advances in trauma care reach all injured patients. The report concludes that military and civilian integration is critical to saving these lives both on the battlefield and at home, preserving the hard-won lessons of war, and maintaining the nation’s readiness and homeland security.

Section 204, of S. 1379, the Pandemic and All-Hazards Preparedness and Advancing Innovation Act of 2019 (PAHPAI), known as the MISSION ZERO Act was signed into law June 24, 2019 (Public Law No: 116-22). MISSION ZERO takes the recommendations of the NASEM report to create a U.S. Department of Health and Human Services (HHS) grant program to cover the administrative costs of embedding military trauma professionals in civilian trauma centers. These partnerships will allow military trauma care teams and providers to gain exposure to treating critically injured patients and increase readiness for when these units are deployed. Similarly, best practices from the battlefield are brought home to further advance trauma care and provide greater civilian access.

By facilitating the implementation of military-civilian trauma partnerships, this program will preserve lessons learned from the battlefield, translate those lessons to civilian care, and ensure service members maintain their readiness to deploy in the future. We ask you to fully fund these lifesaving grants and include $11.5 million for the Military and Civilian Partnership for the Trauma Readiness Grant Program.
Our organizations stand ready to work with you to support this critical effort. Thank you for your consideration.

Sincerely,

American Association for the Surgery of Trauma
American Association of Neurological Surgeons
American Association of Orthopedic Surgeons
American Burn Association
American College of Emergency Physicians
American College of Surgeons
American Society of Plastic Surgeons
American Trauma Society
