# An Overview of Neurosurgical Topics for the Advanced Practice Provider (APP)

We understand. Organizations are limiting travel and continuing education budgets. The AANS wants to help you develop a solid justification for attending educational programming. Use the tools in this kit to explain how attending the [AANS APP Course](#) is a smart investment for your organization.

### **FOCUS ON THE BOTTOM LINE**

When resources are tight, focus on the bottom line: costs vs. benefits. This worksheet will help you determine the full cost of attendance and identify the benefits. Customize the justification letter on the last page to draft a formal (and persuasive) request for funding.

Creative solutions can help you get your request approved. Consider these options:

- Before meeting with your supervisor, prepare a plan that shows who will cover your duties while you attend the conference.
- Offer to prepare and deliver a short presentation and Q&A session for your colleagues to share what you learned. This way, your coworkers will also benefit from your attendance.
- Share resources with colleagues. As an attendee, you will have access to a course outline that can be shared and used as a department reference.

## STEP 2: OUTLINE THE BENEFITS

When showcasing the benefits of the AANS From Cranial to Spine: An Overview of Neurosurgical Topics for the Advanced Practice Provider, focus specifically on what you will bring back to your organization as a return on their investment. Use the course [agenda](#) to answer these questions

1) Which sessions have particular relevance to the work you do?

Example: Neuroimaging Workshops, Subspecialty Breakouts, Essential Neurosurgical Skills Practical Clinic

2) Which sessions will help you assist your team to overcome existing or future challenges?

For example: The framework of this conference is designed to fill knowledge and skill gaps and address new advances and interventions in care delivery specific to neurosurgical practice. Moreover, the conference will define guideline recommendations and dosing strategies to promote safe and responsible use of new anticoagulation agents and their reversal in neurosurgical patients.

3) Are there any speakers your organization would benefit from hearing or working with?

For example: The AANS From Cranial to Spine: An Overview of Neurosurgical Topics for the Advanced Practice Provider is developed by a partnership of physicians, nurse practitioners and physician assistants. This four-day course covers all aspects of neurosurgery, including pharmacology and neuroimaging. The content covered is the equivalent to lectures and bedside teaching that happen over years at a busy institution. Topics are designed for both newly hired practitioners and those who are highly experienced.

4) Networking can help open doors for your organization. Will the presenters and attendees you meet at the course help your department achieve its goals?

5) What value could you get from discussions with other neurosurgical nurse practitioners and physician assistants.

When considering these questions, keep these tips in mind:

- List specific sessions and explain how they will impact you, your department and your facility.
- Clearly make the connection between your organization's needs and the benefits.
- If the budget approver is outside of your department, do not assume they understand your department's goals or any technical terms. Spell out the impact for them.
- Passion is the best persuasion technique — let yours shine through in your letter.

# STEP 3: DRAFT YOUR JUSTIFICATION LETTER

Below, you will find a “justification letter” template, which can help you craft a note to your supervisor explaining all of the benefits of attending the AANS From Cranial to Spine: An Overview of Neurosurgical Topics for the Advanced Practice Provider course, including how it will help advance your organization and make you a better employee.

This general template will get you started. Customize it to you and your organization’s particular needs:
