June 30, 2021

The Honorable Brian Babin, DDS U.S. House of Representatives 2236 Rayburn House Office Building Washington, D.C. 20515 The Honorable Chrissy Houlahan U.S. House of Representatives 1218 Longworth House Office Building Washington, D.C. 20515

Dear Representatives Babin and Houlahan:

On behalf of our organizations, we thank you for reintroducing the "Resident Education Deferred Interest (REDI) Act" (HR 4122) that, if passed, will allow borrowers to qualify for interest-free deferment on their student loans while serving in a medical or dental internship or residency program.

As you are aware, the cost of graduate-level medical and dental education is substantial for the vast majority of students. Further, those who undertake several years of residency with very low pay are often unable to begin repaying student debt immediately. As a result, they qualify to have their payments halted during residency through deferment or forbearance processes, but they continue to accrue interest that is added to their balance.

Passage of the "REDI Act" is an important part of student loan repayment reform. This bill would prevent medical and dental residents from being penalized during residency and save them thousands of dollars in interest. Providing interest accrual relief during residency also would make the concepts of opening practices in underserved areas or entering faculty or research more attractive and affordable to residents.

Thank you again for your support of this important issue.

Sincerely,
