

March 10, 2011

The Honorable John A. Boehner
Speaker
United States House of Representatives
H-232 US Capitol
Washington, DC 20515

The Honorable Nancy Pelosi
Democratic Leader
United States House of Representatives
H-204 US Capitol
Washington, DC 20515

Dear Speaker Boehner and Democratic Leader Pelosi:

The undersigned organizations urge Congress to begin working in a bipartisan, bicameral manner to enact legislation this year that will eliminate Medicare's sustainable growth rate (SGR) formula and lay the groundwork for adoption of broader physician payment and delivery reforms.

Last year, Congress was required to act five times to pass short-term measures (for as short as one month) to stop Medicare physician payment cuts scheduled for 2010. On three occasions Congress failed to act before cuts were implemented, causing disruptions in processing Medicare payments. These payment uncertainties and delays created serious problems for many physician practices and jeopardized seniors' access to care. Ultimately, Congress and the Administration worked together in a bipartisan manner to develop offsets and pass the "Medicare and Medicaid Extenders Act of 2010," which stabilized Medicare physician payments through 2011. It is our hope that Congress can again work together this year to end the cycle of temporary patches once and for all and develop a long-term and meaningful solution to this issue.

Throughout the past year, Senators and Representatives of both parties, as well as President Obama, have expressed support for permanently addressing the SGR. Both the final report of the National Commission on Fiscal Responsibility and Reform and the President's Fiscal Year 2012 Budget recommended eliminating the SGR. Each year a true solution is postponed, the cost of eliminating the flawed SGR formula grows. As work begins on the Fiscal Year 2012 budget resolution, we believe that this is the year for Congress to make eliminating the SGR one of its highest priorities.

The physician community is committed to taking a leading role in developing and pilot testing payment and delivery reforms that can provide a foundation for replacing the SGR and improving the Medicare physician payment system. We look forward to building upon last year's bipartisan effort to permanently replace the SGR with a workable system that keeps pace with practice costs and ensures that seniors, the disabled, and military families receive the high quality care that they have been promised for years to come.

Sincerely,

AMDA – Dedicated to Long Term Care Medicine
