Re: Support of H.R. 3173, the *Improving Seniors' Timely Access to Care Act*

Dear Representatives DelBene, Kelly, Bera, and Bucshon:

As the Alliance of Specialty Medicine (Alliance), our mission is to advocate for sound federal health care policy that fosters patient access to the highest quality specialty care. As patient and physician advocates, the Alliance writes in support of your legislation, **H.R. 3173, the *Improving Seniors' Timely Access to Care Act***, which would improve the prior authorization process in Medicare Advantage (MA) plans through increased transparency and the establishment of an electronic prior authorization process.

Prior authorization is a cumbersome process that requires physicians to obtain pre-approval for medical treatments or tests before rendering care to their patients. The process for obtaining this approval is lengthy and typically requires physicians or their staff to spend the equivalent of two or more days each week negotiating with insurance companies — time that would better be spent taking care of patients. Patients are now experiencing significant barriers to medically necessary care due to prior authorization requirements for items and services that are eventually routinely approved. Your legislation will help streamline, standardize, and modernize prior authorization in the MA program.

H.R. 3173, the *Improving Seniors' Timely Access to Care Act*

The Alliance of Specialty Medicine supports opportunities to improve the prior authorization process to ensure safe, timely, and affordable access to care for patients. Your legislation would reduce the administrative burdens of prior authorization in the MA program, and for this reason the Alliance extends our strong support of H.R. 3173, the *Improving Seniors' Timely Access to Care Act*.

Sincerely,
